IPR Seizure Statistics

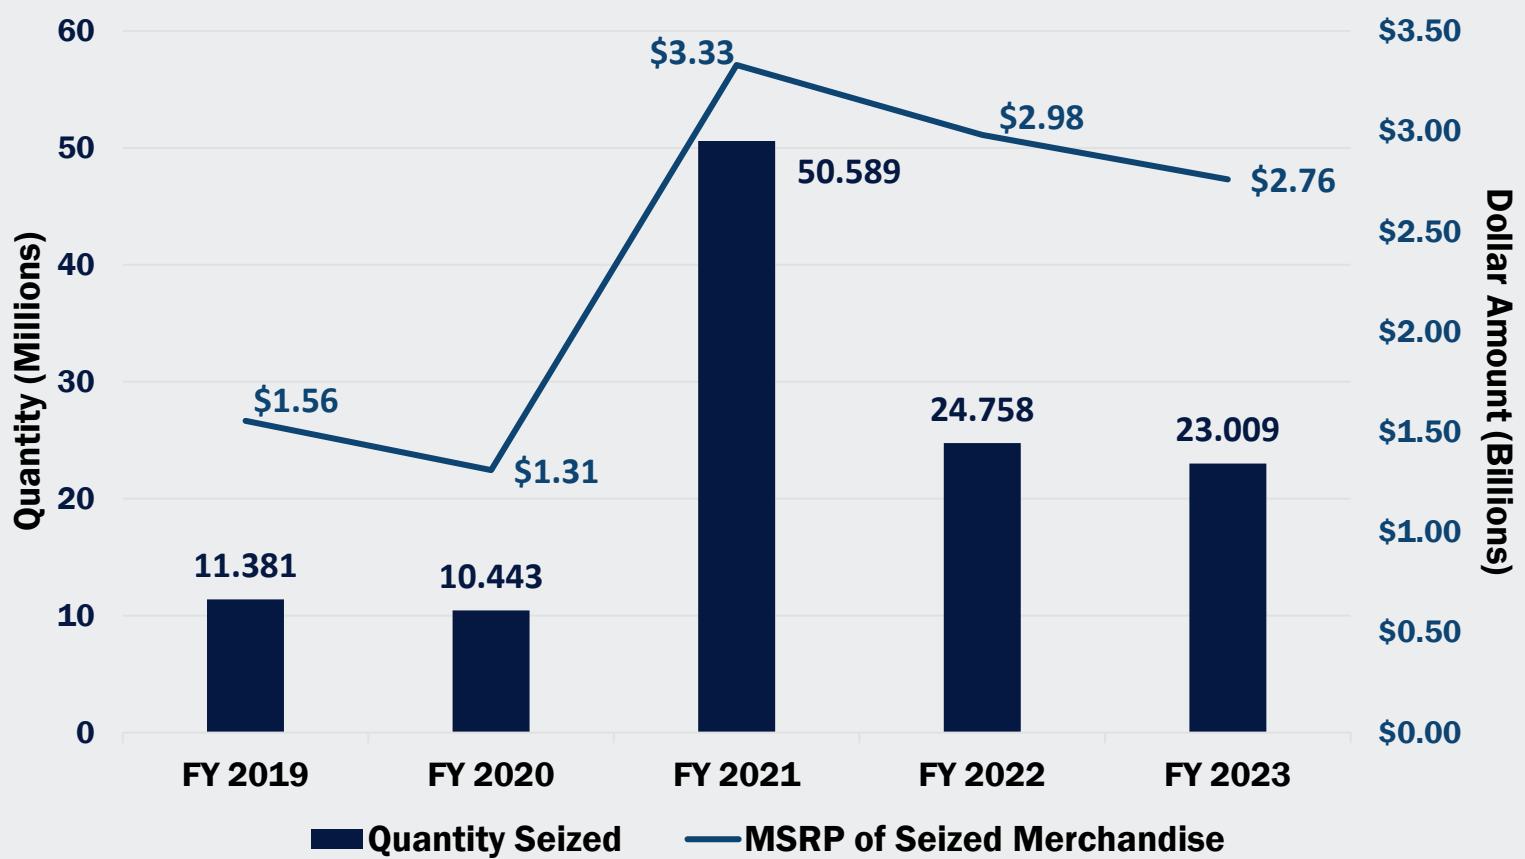

IPR Seizures Over the last 5 Years

U.S. Customs and Border Protection (CBP) is responsible for enforcing trade laws regarding Intellectual Property Rights (IPR) and conducts operations to seize violative merchandise before it enters the U.S. for public consumption.

From FY 2019 to FY 2023, the total number of goods seized for IPR violations has more than doubled, and the total manufacturer's suggested retail price (MSRP) of goods seized for IPR violations every year has increased by almost 80%.

IPR Seizure Statistics

IPR Reporting and Recordation

CBP prioritizes enforcement of those trademark and copyrights that have been recorded with CBP for border enforcement through the e-Recordation Program.

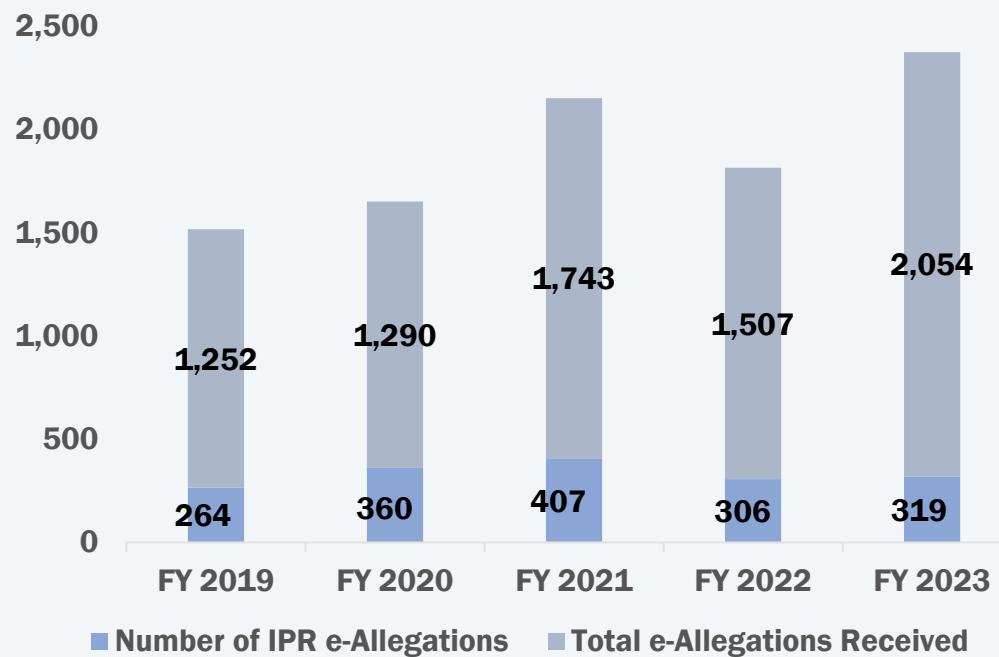

Number of Active Recordations CBP Enforces

CBP's e-Recordation program allows IPR holders to record IPR that has been registered with either USPTO or USCO. Recorded IPR can be protected from counterfeits and piratical copyrights.

Number of IPR e-Allegations

CBP's e-Allegations program provides an electronic portal to report various types of trade violations. IPR trade violations account for a large portion of the total allegations received through this program.
